

Model 5100

SLIDING PATIO DOOR

Fusion-Welded, Easy-Glide Door

Enhance Your Home With the Beauty of Natural Light.

Beautiful, Durable and Weathertight

Designed with exceptional style and performance in mind, the Gentek 5100 patio door is an excellent choice for your home. Its heavy-duty construction begins with a fully fusion-welded frame and metal-reinforced sashes. The generous glass area optimizes natural light and warmth, while precision-engineered insulating components block air infiltration to minimize heating and cooling costs. Built for constant wear and tear, the Gentek 5100 promises classic good looks and easy-glide operation for years to come.

MODEL 5100 PATIO DOOR PERFORMANCE BY DESIGN

- 1 Durable, solid vinyl main frame and sashes won't chip, peel, crack or warp. Virgin vinyl resin is colored all the way through to ensure lasting beauty.
- 2 Protective weatherstripping at jambs, header and sill maximizes thermal efficiency.
- 3 Weatherstripping in extra-deep integral interlocks at meeting stiles increases insulation and helps block air infiltration.
- 4 Metal-reinforced vertical sash components provide added strength and durability.
- 5 Insulated glass unit with PPG Intercept® Warm-Edge Spacer System saves energy year-round by reducing the transfer of heat and cold.
- 6 Heavy-duty dual adjustable steel wheels with steel ball bearings provide effortless operation and movement of the door panel.

ADDITIONAL FEATURES

- Fully fusion-welded main frame and sashes for outstanding structural integrity and strength.
- Durable fiberglass screen with aluminum frame features an adjustable independent wheel system in all four corners.
- Available in a 2-lite style in 5', 6' and 8' widths, and in a 3-lite style in a 9' width. Height is standard at 79-1/2". Custom sizes are available.
- Choose White or Beige door with left or right moving panel.
- Backed by a lifetime limited warranty† for added peace of mind.

OPTIONS AND UPGRADES

- BarrierXP® insulating glass package featuring Low-E glass with argon gas and PPG Intercept Warm-Edge Spacer System for maximum energy savings. Many BarrierXP insulating glass packages meet the latest ENERGY STAR® requirements. Consult your window professional for the optimal glass package required for your home and climate area.
- Interior vent foot lock allows limited and secure opening of the door for ventilation.
- Keyed exterior lock offers convenient access from outside the home.
- Brass interior handset for added beauty and visual appeal.
- Decorative grids—in standard, contoured and brass styles—positioned between the panes of glass for easy cleaning of the window.
- V-grooved glass for a subtle touch of elegance.
